

## Help bring back the world's best (INDIAN) mathematics!

Hello. I'm Jonathan J. Crabtree. I'm an Australian maths historian and researcher. I've discovered the true zero-based maths of India got lost and never made it to 2020! That's why millions dislike mathematics and why my goal is to relaunch India's ideas.

### I NEED YOUR HELP!

Having done the research, I'm presenting a petition calling for India's original maths in primary level classrooms. So please take a minute to visit the online petition now!

Thank you!

Jonathan J Crabtree

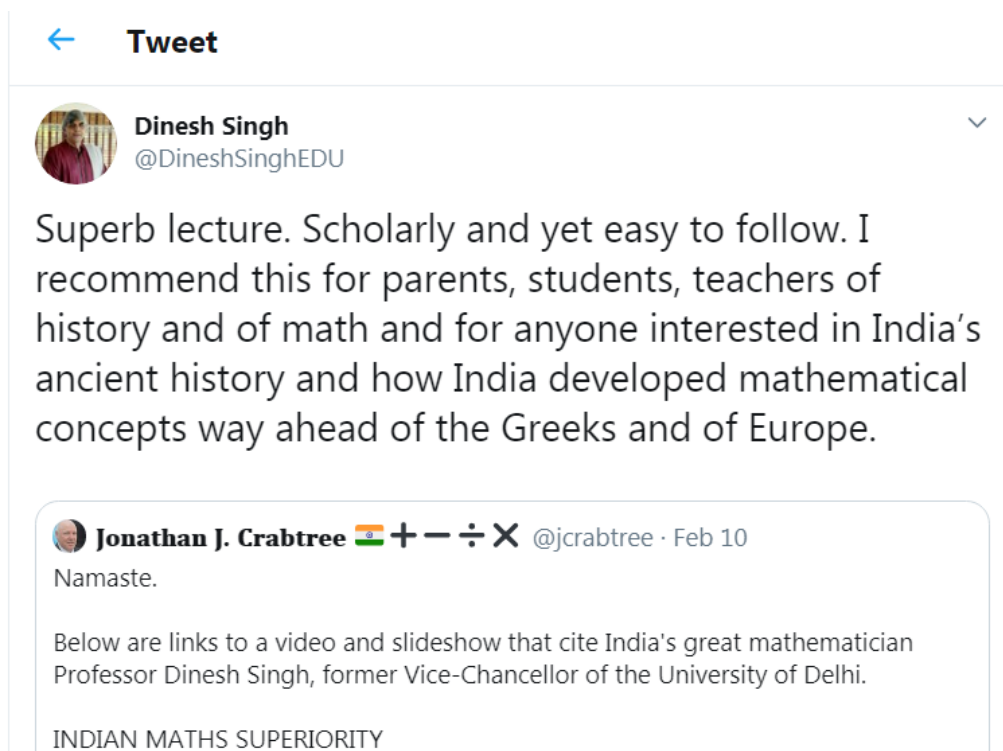

Elementary Mathematics Historian / Guest Speaker
